The Global Charity Trust

The Global Charity Trust's (part of CAF - Charities Aid Foundation – charity number 268369) mission is to support and create global awareness and help raise funds for hundred's of worldwide causes with a focus on children, the elderly, education, the environment and animal welfare.

By working alongside projects like The Global Party and The Movement, The Global Charity Trust has found the perfect partnership to deliver its mission.

Created by David Johnstone, CEO and Founder of the Free Holdings Group, alongside his partner Lord Stanley Fink, The Global Charity Trust aims to directly support a broad spectrum of charity sectors including helping children, the environment, education, health, animal welfare and many more to ensure that they 'give something back and leave the next generation with a legacy to be proud of'.

Education and preservation are one of The Global Charity Trust priorities, as it is an investment into society itself; education projects aiming to produce a greater proportion of people who have lives more fulfilling and participatory both in work and outside, thus taking more social responsibility.

The Global Charity Trust's philanthropic mission is to have social conscience and to directly support many worldwide charity projects by raising funds and awareness through the kind support of The Global Party, THE MOVEMENT and The Prize Draw.

The Global Party is the world's largest event and is growing annually in its philanthropic reach. Infamously launching in 2011 at London's Natural History Museum and aboard The Orient Express, this inspirational event brings together the global luxury industry in proudly support of The Global Charity Trust and hundreds of benefiting charitable causes.

Throughout March, June and September 2014 The Global Party will again collaborate with the world's fine dining restaurants, 5 star hotels, bars and nightclubs across the four corners of the world.

With their help this global charity event will once again raise funds and awareness for a vast array of worthy causes, in over 360 cities worldwide. 'Linking The World for a Worthy Cause'!

The Trust was created by David Johnstone, CEO and Founder of the Free Holdings group with his partner and fellow trustee, Lord Stanley Fink. The Global Charity Trust is established under the Charities Aid Foundation (CAF, registered charity number 268369).
