### **A new restaurant booking App that donates a £1 to charity for every diner!**

SCI has been encouraging supporters to do their everyday online shopping through the [Give as you Live](#) widget for a couple of years now. An innovative initiative introduced by Everclick to offer individuals the opportunity to donate to their chosen charity through everyday shopping activities they would be doing anyway at no additional cost.

Now there is a new player revolutionising the restaurant industry. [ChariTable Bookings](#) is a restaurant reservation App that has philanthropy at its core. For every booking made through [ChariTable Bookings App](#) £1 is donated to the the customers charity of choice for each and every diner. The ChariTable Bookings restaurant reservation App allows customers to book tables at thousands of restaurants across the UK at no cost to the customer and with the added benefit of helping charities they are passionate about at the same time.

This wonderful free [App](#) is a useful tool as it holds your personal directory of all your favourite restaurants; from your little Italian round the corner, that business/corporate lunch location, to your weekend gastro pub. Unlike most other restaurant booking Apps, ChariTable Bookings allows the customer to call directly and make a booking as against only booking online.

The 'near me' option means you are never lost for choice. With the ability to see the restaurants address, a guide price, type of cuisine, address, photographs and description of the restaurant, and a map showing the restaurant location. So by using the App to make your next table booking, enjoy supporting your favourite causes at NO cost to you.

[Download the ChariTable App](#) today and start making giving back taste even better!
