

ChariTable – philanthropic restaurant booking App

April 21, 2016 by [Alan Greenhalgh](#)

The ChariTable Bookings restaurant reservation App allows customers to book tables at thousands of participating restaurants across the UK – and sounds like a fantastic idea!

£1 for EVERY customer will be donated by the restaurant to a charity of the diner's choice. So if you book a table for 4 people and your attendance is confirmed and moneys are received from the restaurant partner, £4 will be donated to your selected charity. You can see the live total raised for The Movement 365 and see your own amount raised.

You can choose from a growing list of over 4,000 UK registered charities which cover, local causes to global endeavours, including education, the elderly, the environment, animal welfare, the arts and children's wellbeing.

ChariTable Bookings allows the customer to call the restaurant directly and make a booking as against only booking online. The restaurants in or near London are

[Edera](#) in Holland Park, [Wiltons](#), [Franco's](#), [Roast](#), Edera, [Beach Blanket](#) [Babylon](#), [Griffin Inn](#) in Fletching, [Bleeding Heart](#) and [Mamounia](#).

High res images are on www.globalpr.net/charitablebookings

The 'near me' option means you are never lost for choice. With the ability to see the restaurants sustainability credentials, a guide price, type of cuisine, address, photographs and description of the restaurant, and a map showing the restaurant location, this is an essential App for charitable dining. It's currently in the apple store but will soon be available on android devices.

That your dining companions will be as charitable about your outfit or surroundings is not certain.
